

Mold Change TECHNOLOGY

REDUCE DOWNTIME WITH MOLD CHANGE TECHNOLOGY

When it comes to QUICK MOLD CHANGES, you need equipment that will maximize efficiency, increase productivity, increase cost savings, maximize press utilization and allow for a safer manufacturing environment. Integrated with other Milacron machinery and systems, our mold change technologies give you every advantage in plastics processing.

Mold Clamps • Mold Cart • Mold Change Table • Storage Racks

Easy to Install,
Flexible, Safe and
Low Maintenance

Mold Change TECHNOLOGY

Exceptional Features and Options

From mold clamps to changing tables, our mold handling products allow you to find innovative solutions to fast mold handling. Because our equipment is built to the highest industry standards, you can expect the equipment from Milacron to withstand harsh and rigorous use on a daily basis.

- ✓ Heavy capacity to efficiently move molds quickly
- ✓ Automatic systems available- no operator necessary on some models
- ✓ Two station shuttle table for quick change
- ✓ Floor mounted table and mobile top
- ✓ Designed for 30,000 molds
- ✓ Safety stops on cart rollers

Performance Advantages

Speed – Quick mold change and positioning with little to no adjustment

Safety– Perimeter fence with electric interlocks on certain models keeps your team safe during mold changes

Utilization increase – Quick change makes for more available press usage, increasing productivity and reducing downtime

Automation – Operator not required to move molds on some models
