# Reclamation PRODUCTS

## Exceptional Features/Options

Reusing plastic materials to further industrial processing results in reduced energy consumption, lower environmental impacts and cost savings.

### ELECTROSTATIC OIL CLEANERS

- ✓ Unique ability to draw out contaminants of all sizes
- ✓ Maximizes control and machine performance
- ✓ Eliminates need for repeated oil changes and downtime

### GRANULATORS

- ✓ Reduce plastic waste
- ✓ Use energy-saving low horsepower
- ✓ Have multiple safety interlocks to prevent injury while running

## Performance Advantages

**Electrostatic Oil Cleaners** – Reduces machine wear and tear resulting from oxidation, and keeps your equipment running efficiently with less maintenance

**Granulators** – “Green” plastic shredders that reduce waste plastic into flakes that can be used for new products or sold as raw recycled materials
