

SOLUTIONS. TECHNOLOGY. SERVICE.

RETROFIT, REBUILD AND CERTIFIED PRE-OWNED

RETROFIT OR REBUILD

As your business needs change, your machines need to change with you. Whether you need retrofitting of your current machines or a complete rebuild of older machines that still have life in them, Milacron can service your injection, extrusion, and auxiliary machines.

Examples of services:

- Control retrofit of various designs and capabilities
- Update or repair hydraulics systems
- Improvements for energy conservation
- Retrofits for process enhancements
- Complete or partial overhaul to your machine

CONTACT YOUR LOCAL SALES REPRESENTATIVE

CERTIFIED PRE-OWNED

Milacron Certified Pre-Owned offers only top-of-the line used injection, extrusion, and auxiliary equipment to plastics processors worldwide. We stock used equipment that goes through our stringent certification process. We partner with you when you sell your surplus machines, ensuring you receive top dollar for your equipment, facilitate company liquidations and auctions, and financial due diligence.

Milacron Certified Pre-Owned's mission is to support the injection molding and extrusion companies in a fashion that makes them more successful, profitable, and efficient by utilizing the equipment and services that our company provides.
